

# Mahfud Febry Styanto, S.Kom., CHRG

## Human Resources & Administration

### Summary

A multidisciplinary professional in the fields of HRD, Payroll, General Affairs, IT Support, FMCG, and Operational Administration with hands-on experience in the manufacturing industry. Has held cross-departmental roles within the same company at different times, demonstrating loyalty and the trust placed in me based on my achievements in each role. Competent in payroll, workload analysis, BPJS, managing over 100 IT devices, and operational coordination. BNSP CHRG certified, S.Kom., GPA 3.39.

### Work Experience

#### Staff HRD / General Affairs ( Food Manufactur & Distribution )

UD DUTA PANGAN  
Juni 2025 - Juni 2026

- Processed monthly payroll for 121 employees, including salary, deductions, and bonus calculations
- Calculated and administered BPJS Kesehatan and BPJS Ketenagakerjaan contributions for 121 employees, ensuring full compliance and on-time submission
- Managed business licensing and legal compliance through the government's OSS platform, including registration and renewal of NIB, business deeds (Akta), SK Kemenkumham, NPWP, and SIUP for CV and PT entities
- Coordinated internal and external administrative processes, including notary-related documentation and periodic renewal of legal and tax-related company documents
- Drafted job descriptions and conducted KPI evaluations across 6 divisions (Executive, Finance, Logistics, Warehouse, Marketing, and HR/General Affairs) to determine contract renewals and staffing decisions
- Managed company facilities and operational assets, including delivery vehicles (blind vans, trucks, motorcycles), office and production equipment, and building utilities across multiple cities

## IT Support Specialist

( Food Manufactur & Distribution )

UD DUTA PANGAN

Januari 2025 - Juni 2025

- Maintained 90% device uptime across 30 computer and office devices through regular preventive maintenance
- Handled 1-3 support tickets daily, resolving minor issues within 30 minutes and major issues (including part procurement) within 1-2 hours
- Reduced recurring IT incidents by 50% and eliminated dependency on external technicians by establishing an in-house IT support function
- Implemented Class Based Queuing (CBQ) using Mikrotik and Winbox to allocate exclusive bandwidth for priority divisions while limiting general network access, monitored via Wireshark on a Linux-based system
- Designed and implemented a real-time, web-based ERP/SaaS system to replace manual, paper-based, offline Excel reporting, reducing report turnaround time from 4 hours to under 1 hour and eliminating inter-division reporting delays

## Warehouse & Production Administrative Staff

( Food Manufactur & Distribution )

UD DUTA PANGAN

Juni 2024 - Desember 2024

- Managed daily production administration for 25 SKUs, tracking approximately 100kg of flour-based raw material usage per SKU
- Applied FIFO / FEFO inventory methods to minimize raw material waste and ensure product freshness
- Maintained safety stock buffers for perishable raw materials to prevent stockouts and minimize spoilage risk
- Set min-max stock levels and batch/lot tracking to prevent stockouts, reduce overstock, and maintain traceability
- Organized warehouse layout using put-away and picking systems and 5S principles for efficient storage and retrieval
- Coordinated with vendors and suppliers on raw material delivery schedules to ensure production continuity
- Monitored raw material and product inventory across 200+ SKUs, maintaining 85% stock accuracy through regular stock opname
- Performed monthly closing to reconcile inventory, production, and distribution records at month-end
